## EXPERIENCE

### Full Stack Developer – iHive (Capstone Project)

#### UNC Greensboro

📅 January 2025 - April 2025

📍 Greensboro, NC

- Led a 4-member team building a GitHub-style collaboration platform using Next.js, Node.js, PostgreSQL, and AWS S3.
- Engineered a secure file system with nested folders and S3-based file storage integrated with Supabase authentication.
- Developed and optimized REST APIs for authentication and content management, enabling seamless access across the platform.
- Coordinated agile sprints, delegated tasks, and conducted code reviews to maintain high product quality.

### Full Stack Developer – JustSeen (Personal Project)

#### Remote

📅 June 2025 - current

📍 Remote

- Built a movie discovery web app integrating TMDb & YouTube APIs with React/Next.js.
- Implemented GSAP animations for smoother user interactions and modern UI transitions.
- Improved API performance with client-side caching (React Query), significantly reducing latency for data fetches.

### Frontend Developer – Personal Portfolio

#### Remote

📅 May 2025 - current

📍 Remote

- Designed and deployed a responsive personal portfolio with React, Next.js, and Tailwind CSS.
- Enhanced UI/UX with motion design, improving navigation and showcasing projects effectively.
- Optimized site performance and accessibility across desktop and mobile platforms.

## EDUCATION

Bachelor of Science  
Computer Science, Minor in  
Mathematics

#### University of North Carolina Greensboro

📅 Jan 2022 - May 2025

📍 Greensboro, NC

🎓 3.4
